

AURALiC[®]

Sound of Innovation

POLARIS Wireless Streaming Amplifier is designed for music lovers seeking for the highest levels of performance from a single compact box. It is a wireless streamer, a music server, a DAC, a pre-amplifier with phono stage and a power amplifier - the ultimate solution for your HiFi system.

SPECIFICATIONS

Continuous Output Power	120W/180W (8ohm/4ohm)
Frequency Response	20Hz - 20KHz, +/- 0.5dB
THD+N	<0.01%, 20Hz-20KHz@1W
IMD	<0.01%, 20Hz-20KHz@1W
Streaming Inputs	<ul style="list-style-type: none"> Network shared folder USB drive Internal music storage uPnP/DLNA media server TIDAL & Qobuz Internet Radio AirPlay Bluetooth Songcast RoonReady
Digital Inputs	<ul style="list-style-type: none"> AES/EBU Coaxial USB device to computer USB host for storage and DAC RJ45 Gigabit Ethernet 802.11b/g/n/ac Dual-Band WiFi
Analog Inputs	<ul style="list-style-type: none"> Line Stage (Input Sensitivity: 4Vrms) MM Phono Stage (Gain: 36dB, 65mV at maximum)
Analog Outputs	<ul style="list-style-type: none"> Single-Ended RCA (6Vrms @ 0dBFS) Loudspeaker Binding Post
Supported File Types	AAC, AIFF, ALAC, APE, DIFF, DSF, FLAC, MP3, OGG, WAVE, WV and WMA
Supported Digital Formats	All PCM from 44.1KS/S to 384KS/s in 32Bit DSD64, DSD128, DSD256
Control Interface	<ul style="list-style-type: none"> AURALiC Lightning DS AURALiC RC-1 Remote control OpenHome compatible software UPnP A/V compatible software Roon
Dimension	13'W x 10.2'D x 2.6'H (33cm x 26cm x 6.5cm)
Weight	10 pounds (4.5kgs)
Color Options	Silver / Black
